## New Bell System - Kilkee Church

The original mechanical/electronic bell system that was installed in the church served for the past 47 years. While it was a "state of the art" system when it was originally imported from the United States in the early 1960's it has been superseded with the advance of technology. Since early in January the original bell system has collapsed and is beyond repair. This week we have installed a modern system at the cost of €4,000 which we hope will serve the parish with good chimes into the future.

Your contributions towards the second collection at weekend Masses in Kilkee enables us to continue with essential maintenance and repair work such as this. Thank you.
