## Reflection...

In July Summer is upon us and rumours of the sunshine prove to be true. We give thanks for the life-giving blaze of the sun pouring over the world, bringing warmth and growth and well-being. But we pray also for people in countries where the sun is so hot and water is so short that the temperatures are life-threatening.

As climate change makes the problem worse, we pray for sustained progress towards carbon reduction across the globe.

May this not be the generation that ducks the crisis but the one that begins to solve it.
