## Kilkee Church Repairs

Over the past months we have carried out essential repair and maintenance at the front of Kilkee Church. The work included the repair of the steel and concrete pillars supporting the large stained glass at the front of the church; the repair of the storm glazing for the window; the painting of the concrete surround and doors at the front elevation of the church. The final part of this work will be carried out in the coming weeks with the installation of new lighting at the front car park.

*We are very grateful to all who contribute to the Repairs Collection buckets at the main doors of the church at Mass times.*

*Your donations to this collection enables the parish to continue its ongoing and necessary maintenance work to our church building.*

### Prayer for Peace in our World

Loving God, We pray for the people of Ukraine, those caught up in the Middle East conflict, and for all those affected in any way by war in our world that you will be close to them and protect them.

We pray for world leaders, for compassion, strength and wisdom to guide their choices.

We pray for the world that in this moment of crisis, we may reach out in solidarity to our brothers and sisters in need.

May we walk in your ways so that peace and justice become a reality for the people who are suffering and for all the world. Amen.

### Reflection...

Each year, the Season of Creation proposes a theme to focus on. This year's theme is "Peace with Creation", inspired by Isaiah 32:14-18: "My people will abide in a peaceful habitation, in secure dwellings, and in quiet resting places."

There's a flourishing promised in the scripture here, a restoration of right relationships, and this brings deep peace, the kind of peace Jesus offers to his disciples after the resurrection, the kind of peace Pope Leo talks about. A peace that is not just the absence of war and conflict, but a peace that goes deeper to the core of creation, that recognizes the innate dignity of all things held in the delicate ecosystem of life. When our eyes are open to the gifts and abundance of life within our planet, when we contemplate creation and the gifts of the creator visible and invisible around us (like the atoms in a grain of sand, or particles in droplets of rain), we get a sense of ourselves within a myriad of fascinating relationships and see how everything is connected. "Nature cannot be regarded as something separate from ourselves or as a mere setting in which we live," Pope Francis wrote in Laudato Si'. "We are part of nature." (Laudato Si', 139).
